Prot. Nr.:...132.....  
Tiranë , August 23, 2016

## LETTER OF INTENTION

*To whom it may concern.*

This is to attest the intention of the Marubi Film Multimedia Academy in Tirana Albania, to support the Albanian Cinema Project.

One of the main goals of the Marubi Film Multimedia Academy from its founding is the creation of conditions and the support of events and initiatives in direct relation with the saving and preservation of the Albanian film industry and infrastructure. That being said, the unification of local and international professional human resources and expertise, remains a common aim for a common good.

The Albanian Cinema Project, founded from an initiative of archivist phd. Regina Longo, has during the past five years, made efforts in finding the adequate means for preserving and restoring Albanian films, suffering from bad storage conditions and a lack of professional expertise and training for Albanian archivists. The ACP has been organizing successful workshops and training sessions for archive specialist from Albania and the Balkans.

The Marubi Film Multimedia Academy, is happy to work closely and join the efforts with the Albanian Cinema Project in order to provide all possible needed support and our expertise to further improve the preservation of Albanian film heritage, still endangered nowadays.
